

Volcano!

name _____

Below is a chart of a volcano.

Cut out the names for parts of the volcano, and paste them in the right spot.

Magma

Lava

Ash Cloud

Crater

Magma is lava before it comes out of a volcano.

Lava is super hot rock, it is so hot that it can move like water.

Ash Cloud tiny pieces of rock and lava that fly out of the volcano.

Crater the bowl shaped hole at the top of the volcano.
